PERSONAL PROJECTS

Robot Game

January - May 2023

- Semester long project, developing a Java based robot game using the Codename One framework.

Senior Project Website – On Going

January –December 2023

- For our flagstone project me and my team are creating a website for a Boba Shop that will allow customers to order directly from the website and earn rewards, as well as letting the owner change the menu through admin privileges.

Landing Page

August -September 2023

- Developing a personal landing page using Next.js, Tailwind CSS, and hosted on Vercel.
 - trevorstreng.com

Crypto Trading Bot

October-November 2023

- Developing an automated cryptocurrency trading bot in python that checks prices and creates moving averages to determine if it should buy or sell.
